

Upper Peninsula Voting Data

The following data has been compiled by Isabelle Karl, a student researcher with Rural Insights.

This election data has been published for informational purposes only.

The following data details the election results for Congressional, Senatorial, and Presidential elections in 2016, 2018, and 2020. This collection also features the results of Michigan's Congressional and Gubernatorial races in 2018 and 2020.

The six counties featured in this publication are the largest by population in Michigan's Upper Peninsula. This will be followed with more information on recent elections in the U.P. at a later date.

Please note that the data listed for State House Districts refers only to the specific counties under which it appears, not including the entire voting district. Some districts contain multiple counties.
